Donation of Non-woven Masks for Children to Elementary Schools in Fukuyama City

On November 8, 2021, at Fukuyama City Hall, we donated 1.5 million non-woven masks (more than 50 masks per student) for children to about 26,000 students in 78 elementary schools in Fukuyama City for use as preventive measures against COVID-19 and influenza infections. This is the second donation following the 300,000 masks donated in April 2020.

At the donation ceremony, the Administrative Director Shigehiro Komaru of the Foundation handed over the donation list and non-woven masks for children to Mr. Naoki Edahiro, Mayor of Fukuyama City, and Managing and Administrative Director Teruko Komaru received a certificate of appreciation. Mr. Masaaki Miyoshi, Superintendent of Education, expressed his gratitude for our strong support.
